The Second Quarter:

Here we are in fall already! Not sure what happened to summer. I was only able to take off one full week this summer, mostly due to the IIECD Gathering in July, but, I was able to take off a few Fridays for a few long weekends as well as time for my uncles memorial.

The IIECD Gathering was a success with a few minor glitches behind the scenes. The planning committee did a great job and I wish to acknowledge a couple of committee members. Alli Matchett, our AYIP (intern) did a very good job of staying focused and calm. I could learn a few things from her! She was respectful in her questioning and communications throughout her time with the planning committee and our provincial office and one of her final tasks was to compile the IIECD gathering evaluations. Thank you Joan Gignac for your support, coming to the Victoria office to add more planning support, ensuring we stayed on task and moving forward with everyone in a respectful way, and for your work with the IIECD budget from draft through to review and as we finish off all the payments through to reconciliation toward a balanced budget. All the other committee members including our Ontario colleagues did a great job. Connections with new colleagues and new friendships were formed. We hope to provide support to the Seattle planning committee who is taking on the 3rd annual IIECD Gathering in 2018 or 2019.

It is a bit hard to recall any of my other work this summer with such a focus for the months leading up to the IIECD, but did manage to stay busy.

We had to go through our e-mails to delete/archive and I confess I am one who never does this. It was a difficult, time consuming task that helped our server situation, but did not help me as I use my e-mail as an archive! We have just gone through a computer program change as well to Cloud 365, again a painful task from someone who is “mature” and who does not keep up with technology very well. Sigh.

Our AIDP manual is out to all our programs and MCFD folks as well as on our website. I look forward to focussing on and planning our AIDP 25th anniversary in 2017. AIDP community visits and training are being planned through the fall.

That's it for this quarter.
